2 Year Director

Sue Lester
Immediate Past Pres. Director

President

Pilot Club of Naples/Naples Pilot Foundation 2014-2015- Rosemarie Kirk

Dear Pilots,

I want to take this opportunity to thank all of you for another wonderful year. It has been rewarding and humbling serving as your President for the past two years. The time has flown by so fast and I feel that we are only getting started with all of the new energy coming into the club. I truly have been blessed to see our membership increase. I'm so thrilled with the new Pick Me Up program getting underway in such a grand start. I will continue to support our board and be available to help in any way that I can. Thank you again for your faith and confidence in me as your President.

Our installation of the new board of officers will be June 18th. Hopefully, you will all attend and pledge to support our new President Marilyn Lewis and her team.

Judy Langley-Pilot International says:

Cannot wait to see Ethan Zohn in Orlando. He is an awesome speaker and truly wonderful individual!

Attending Pilot International Convention and Leadership Conference in Orlando from Naples are Marilyn Lewis and Joan Hurd. Sue Lester will also attend and be recognized at the incoming PI Projects Coordinator.

Breaking News of Interest to the Pilot Club of Naples: FOR IMMEDIATE RELEASE Project Lifesaver- Current Rescues just hit 3,000.

Lockheed Martin and Project Lifesaver International to Partner in Public Safety Mission to Locate Missing Persons With Unmanned Indago™ Quad Rotor

To augment humanitarian search and rescue efforts, Lockheed Martin (NYSE: LMT) announced it is teaming with Project Lifesaver International and Loen Engineering Inc., bringing advanced technology to first response agencies. The Indago small unmanned aerial system (UAS) will be integrated with an innovative light-weight antenna and receiver developed by Loen Engineering. The system allows Project Lifesaver agencies and first responders to rapidly locate special needs individuals who have wandered from their homes.

"Using the Project Lifesaver location device with aviation assets will extend search areas from approximately one and a half miles to well over seven miles," said Gene Saunders, chief executive officer and founder of Project Lifesaver International. "Integrating Lockheed Martin's Indago with the Project Lifesaver capability is a game changer for Project Lifesaver agencies because it offers an affordable alternative to manned aviation assets and can be used by any first responder agency."

First responders have relied on manned aircraft to conduct aerial search and rescue operations, and the Indago reduces the response time and increases the efficiency of search efforts when time is critical. The five-pound, collapsible Indago system can be stored in the trunk of any squad car and deployed within a matter of minutes.

Bring sample size shampoo, etc for Bobbi
Bring Can Pop Tops for Marilyn Lewis.
Installation Banquet at

Dates to Remember

June 4th - Board Meeting: at 6 PM
NAMI Office

June 11th - Business Meeting: 6 PM
Perkin's on Pine Ridge Rd.

June 18th - Installation of Officers
Banquet at Terracina Grand 6 PM

June 27th - Collier County Sheriff's
Office Bike Rodeo at Corkscrew Middle
School on Oil Well Road from 9 to 12.

July 2nd - Board Meeting: at 6 PM

July 8 to 11 - Pilot International
Conference in Orlando

Outstanding leaders go out of their way to boost the self-esteem of those they work with. If people believe in themselves, it's amazing what they can accomplish. *Sam Walton*

Terracina Grand. It will be grand! This is an event that you can bring a spouse, friend, member of your family, etc. Send in your reservation to Paulette with your check.

2015 – 2016 Slate of Officers for the Pilot Club of Naples:
 President – Marilyn Lewis
 President Elect – Joan Hurd
 Treasurer – Nicole Cucuzza
 Secretary – Becky Jarrell
 Directors – Suzan Berg 1 year
 Ruth Fralick 2 year
 Rosemarie Kirk Past Pres.

We, the members of the club, truly appreciate these wonderful Pilots for their commitment to serve. We pledge our support to these outstanding members of our club.

Easy Memory Boost:
COFFEE!
 A British study found that drinking coffee improves memory in older people. (Tea doesn't seem to have as strong an effect.) Coffee may also help control blood sugar and reduce the risk of type 2 diabetes – which may help protect memory function. *Richard Laliberte*

Our Pilot Club of Naples partners with SAFE KIDS. Partnering with other organizations such as SAFE KIDS, NAMI and Miracles Among Us is a great way for us to work with other groups and reach out to help. The best part of partnering is that more will hear about Pilot.

The Williams Pilot Scholarship House for young men has lost a resident. Bryan E. Dolson died May 14, 2015. He was only 19 and just finished his freshman year in Gainesville. Bryan loved the UF Gators, played guitar and helped lead worship in his youth group. He was involved in CRU at UF and was planning on going on a summer mission project to Juneau, AK. This is a tragic loss and difficult to understand. Blessings to his family.

If you have not paid your \$116 membership dues, please do it before June 15th.

Pick Me Ups are kind acts for those who care. Pilot International has encouraged all Pilot Clubs to plan and execute a project for a teacher, care giver, an emergency responder, a public servant, military person or even a loved one close to home to thank them for what they do. Our first project was to acknowledge teachers, therapists and psychologists working with students with brain disorders in seven Collier County schools. The Traumatic Brain Injury (TBI) camp is another focus for the Pick Me Up program. The camp is June 12 – 14 in Florida. As a Pick Me Up Project, the Pilot Club of Naples has voted to donate \$500 to sponsor members of the support group for their registration and transportation expenses. Without this donation from the Pilot Club of Naples, many of these people with Traumatic Brain Injury would not have the opportunity to attend this great camp experience.

Norman Love Chocolates sponsored our Pick Me Up project with donations of chocolates.

We also appreciate Wynn's Family Market for their helpfulness as well.

We are proud to have the support of as our Premier Sponsor of our 5K Run.

The Helmets are Coming, The Helmets are Coming!

After several months of “out of stock” messages, we are now able to order from the Florida Bicycle Helmet Distribution Program/Florida’s Pedestrian and Bicycling Safety Resource Center. We have two orders in the process to fill out our inventory. This means that we will be able to provide helmets for the Collier County Sheriff’s Office Bike Rodeo at Corkscrew Middle School off Oil Well Road on June 27th from 9 to 12. Now, we need volunteers to follow through. Our incoming President, Marilyn Lewis, will be making committee appointments. Helmet fitting events will fall under the BrainMinders committee chairman’s responsibilities. This chairman will be looking for volunteers and offering the dates for helmet fitting classes, should you wish to be certified to fit helmets.

Happy Father’s Day to all the great men who took the important position in a child’s life seriously. We appreciate them and honor them this month. The countdown has begun!

Who is this?

95 DAYS to acquire your sponsorships for the 10th Annual 5K Run/Brain Power Walk on September 5th. Don’t wait until the last moment and let it slip up on you. The success of this event is up to you. We all need to do something to make it work. The packets were distributed at the last meeting. If you did not receive yours, let Sue Lester know.

What Is Dementia and Alzheimer's disease?

Dementia is not a specific disease, but rather a general term to describe a decline in cognitive or mental ability — including memory and other thinking skills — that’s severe enough to interfere with daily life.

Alzheimer’s disease is a progressive brain disease and the most common cause of dementia, accounting for 60 to 80 percent of cases, according to the [Alzheimer’s Association](#).

It’s unclear what causes AD, but research suggests the protein beta-amyloid plays an important role in the disease, considering that beta-amyloid plaques are found on the brains of all patients with AD.

These plaques, however, can start forming decades before any AD symptoms develop, and having the plaques doesn’t mean a person will definitely get AD.

Aside from AD, several other types of dementia exist, including [vascular dementia](#), which is caused by stroke, and [Lewy body dementia](#), which is caused by the abnormal clumping of another protein in the brain.

June Birthdays

2000 – Elyse DePiro

The Pilot Log states there are 8133 Pilot members and 378 clubs. Number of Anchor members is 8109 in 330 clubs. This information changes every month, but this should give you an idea of how many Pilot members and Anchor members there are with the focus to ***Do More, Care More and Be More.*** If you are not receiving the Pilot Log, be sure to notify the Secretary of our Club, Pat Stark.

www.PilotClubofNaples.org is our web site. It is getting better and we appreciate your patience. To submit an item for the web site or an article for the newsletter, send to: Sue Lester at LES1612@aol.com
